Safety sheet flooring

Areas like busy commercial kitchens and wet environments have additional contaminants that are continuously present, and spillages cannot be avoided. The likelihood of a slip is significantly increased, raising the slip-risk level to “extremely high.” These locations, often riddled with contaminants such as grease, oil, shampoo and shower gels demand safety flooring that retains a slip-risk of one-in-a-million.

Altro Stronghold 30™ New colors added

Altro Stronghold 30 3mm thick, 2000 psi

Altro Stronghold 30 adhesive-free 3mm thick, 2000 psi New
