is a part of Premier your partner in construction materials for various spaces.

Activiors, Carebuilt, Cubeluxe, Cubemax and Panelex are business units of Premier and its associated companies

Panellex Introduction:

Panellex has developed sandwich panel integrated system of decoration and energy efficiency. Panellex sandwich panel system are imbedded into the concept of the humanities and international fashion design elements and are leading the new trend of energy saving building materials and satisfied the energy saving development and the market.

Through the endless improvement and reforms Panellex forms its customer oriented developing marketing and service process. Panellex is unique product that is perfect building material and serves the whole society with best decorative walling material.

Product information:

Panellex consists of 3 layers. The top layer is special aluminum zinc coated metal board or aluminum panel. The core material is hard polyurethane foaming (for insulation) the back layer is glass fiber paper or aluminum foil paper. All the 3 layers are shaped by industrialized specialized manufacturing.

Weight: 3.7 kg/m²

Standard Size: 3800x380x16mm

Packag Size: 3850x415x135mm

Packag Quantity: 8 pcs/carton

Aluminum Zinc Coated Metal Board

Thickness: 0.27 To 0.30mm

Panellex has the special structure design of energy saving which eliminate the hot and cold effects. The special air layer can adjust the wall humidity, effectively avoid the indoor moisture, dew and other phenomena that might occurs and extends the life of building.

Panellex is the perfect material for decoration, fast and easy construction and a cost effective product.

	YM-2968 Texture: Plastic spraying aluminum alloy Function: starting part, binding-off part of inside part of the window, internal-angle part 3000 x 18.5 x 20mm
	YM-10509 Texture: Aluminium alloy Function: inside starting part 3000 x 33 x 15mm
	YM-10590A Texture: Aluminium alloy Function: base A of board - connecting part 3000 x 35.6 x 12mm
	YM-2966 Texture: Plastic spraying aluminum alloy Function: window and door part, external-angle part 3000 x 36 x 24mm
	YM-2969 Texture: Plastic spraying aluminum alloy Function: buckling lid of binding-off part 3000 x 18.5 x 21mm
	YM-2970 Texture: Aluminium alloy Function: base of binding-off part 3000 x 38.5 x 17.5mm
	YM-2005/A Texture: homogeneous accessories Function: Connecting part 380 x 40 x 10mm
	YM-20050 Texture: The same material Function: External angle part / Internal angle part 380 x 50 x 50mm
